

Exposciences

Participant

Guide

Preamble

Exposciences Occitanie is an educational plan and a festival, all at the same time.

It enables young people from the age of 5 to 25 to display their scientific and technical projects made with their school, an association or alone. Exposciences is not a competition : it is a place for interactions, discoveries and valorization where curiosity, creativity and cooperation are at the core of the initiative.

An Educational Plan

It gathers the preparation of the young people and the animation days where they display their discoveries to the public.

Calendar

JANUARY

Inform yourself and register

Participate in information and support Eoom meetings for the project approach :

- On Tuesday 13th January 2026, 6pm (FR timezone) in French
- On Wednesday 14th January 2026, 2pm (FR timezone) in French
- On Wednesday 14th January 2026, 6pm (FR timezone) in English

**JANUARY
TO
FEBRUARY**

Gather your information

Make sure you send all the information necessary in order to complete your inscription for your stay.

Ask for any additional help if you need it !

Inscription deadline : 28th February 2026

**MARCH
TO
APRIL**

Prepare and animate your stand

It's time to prepare your stand !
Send your technical sheet before :
11th May 2026

MAY

Prepare for your arrival !

It's the last step ! Train yourself to animate the stand.

Prepare your stand

Every group has an equipped space

With at least :

A table, chairs, a display board (1.80 m x 1 m)

With the possibility to have access to electricity and wifi.

Tips for a captivating stand :

Make clean posters :

Clear titles, pictures with a legend, short and readable texts.

Use objects :

Models, samples, etc. to draw attention.

Prepare an oral presentation :

A 5-10 min presentation adapted for the public.

Do not forget :

To name your sources and to enhance your approaches.

Animate your stand

The animation of your stand is a must, it is the young people who are the actors of it.

A few tips :

Draw the attention of the public with :

A question, a surprising object or a small experiment.

Adapt your speech :

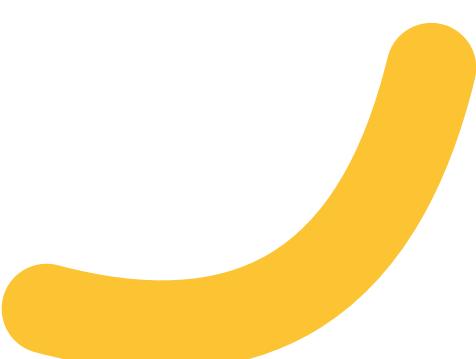

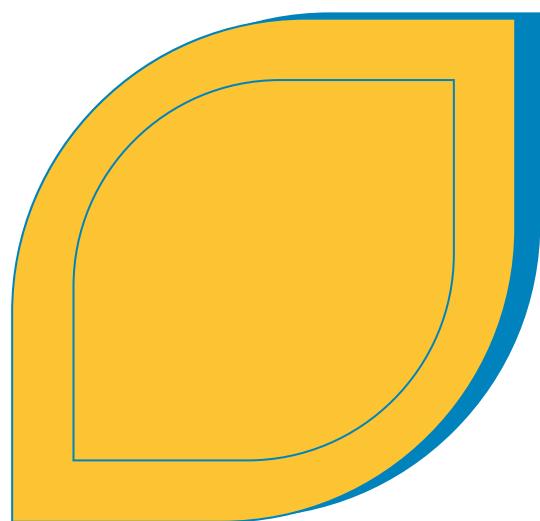

To each visitor, be dynamic and thorough.

Involve the public :

Invite them to touch, to play, to take quizzes.

Work in teams :

Make sure you rotate to enable everyone to visit other stands and to take part in other workshops and animations at the event.

Animate your stand

To animate the day, bound with other people :

Visitor passport :

It is a little game which consists in stamping the passports of the visitors of your stand after talking about your project. You can also ask for your passport and visit as many stands as possible. You will be surprised !

International people at the Exposciences

The Exposciences is an international event, it will welcome people coming from all over the world (Luxembourg, Portugal, Tunisia, Morocco...)

Do not forget that most people will be speaking in French. Try to translate and learn a few words in order to enable everyone to understand your project.

International Delegations

For international participants

During the Exposciences, a cultural event for regional and international delegations will take place. There will be a presentation of each country (choreography, singing, slides, quizzes...) as well as a tasting of regional specialties.

Mobisciences

From 30th May to 5th June 2026, a specific program of the visits and schedules will be given to you before your arrival. At the end of the Exposciences, you will receive a participation certificate. An open-badge and a YouthPass will be available online for every participant.

Regulations & Security

Each participant commits to :

Respect the security measures given by the organisation.

Present safe, adapted and in good condition objects only.

Check the official regulations for the use of :

Toxic, inflammatory, etc. products,

Chemical components,

Any open electronic configuration,

Laser,

Any living material.

Be present at the stand during the whole festival (depending on the schedule given in advance).

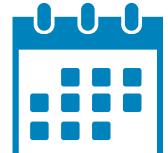

Respect the other teams and the equipment at disposition.

Accept pictures and videos to be used for official communication.
